

VIA optronics Newsletter – 01.2017

Automotive World 2017

The Automotive World 2017 was held from Jan. 18-20, 2017 in Tokyo, Japan. As Asia's largest exhibition for automotive technologies, 6 shows covered all the important topics of automotive industry: automotive electronics, connected car, EV/HEV/FCV, lightweight, processing technology and smart factory.

VIA optronics joined Automotive World 2017, together with IMI. Exhibiting in the Automotive Components & In-vehicle Systems Zone, IMI and Via showed IMI's EMS and camera, as well as Via's enhanced automotive display solutions.

Enhanced display solutions presented have been an 8Inch Display with curved plastic lens, a 12.1Inch Display with a curved glass lens as well as a 10.25Inch Monitor Solution including PCAP touch.

Chinese new year 2017

The Chinese spring festival this year comes on Jan. 28, 2017.

We wish all our partners, suppliers, customers as well as employees a Happy Rooster Year 2017!
